Component Specification: Console Armrest Lid

Part number **INT-CN-3005** | Revision **DRAFT** | Category: Console

Summary

The console armrest lid is molded from PC/ABS and supplied by Brightline Polymers. The program target mass is 0.640 kg; the latest production-intent sample weighed 0.655 kg. Target piece cost was set at $5.60, and the current supplier quotation is $5.75 per piece.

Validation Testing

Flammability testing per FMVSS 302 measured a burn rate of 58 mm/min. Odor evaluation per VDA 270 resulted in a rating of 2.5. No other open test items are recorded for this revision.

Notes

Tooling is at the supplier. Color and grain match approved against the master sample.

Engineer approval: Pending. Document status: DRAFT, not for release.
