Component Specification: Front Door Trim Panel LH

Part number **INT-DR-2003** | Revision **C** | Category: Door Trim

Summary

The front door trim panel lh is molded from PP-TD20 and supplied by Halvard Trim Systems. The program target mass is 1.650 kg; the latest production-intent sample weighed 1.790 kg. Target piece cost was set at $12.10, and the current supplier quotation is $12.30 per piece.

Validation Testing

Flammability testing per FMVSS 302 measured a burn rate of 70 mm/min. Odor evaluation per VDA 270 resulted in a rating of 3.0. No other open test items are recorded for this revision.

Notes

Tooling is at the supplier. Color and grain match approved against the master sample.

Engineer approval: M. Alvarez, Interior Engineering, 2026-10-16
